(54) Title: MODULATION OF THE PHOSPHOLIPASE A2 PATHWAY AS A THERAPEUTIC			
(57) Abstract			
<p>There is provided a method of modifying vasoactivity by regulating a soluble A<math>\beta</math> pro-inflammatory pathway. Also provided is a method of modifying inflammatory reactions in microglia and neurons by regulating a soluble A<math>\beta</math> pro-inflammatory pathway. A method of treating patients with vascular disease by modifying an intracellular soluble A<math>\beta</math> pro-inflammatory pathway is also provided. A pharmaceutical composition consisting essentially of an effective amount of a soluble A<math>\beta</math> pro-inflammatory pathway regulator in a pharmaceutically effective carrier is also provided.</p>
